OPS Level 3 Briefing Note

Incident Number	22-17557
Update	39
Division	
Sector	
Type of Incident	Freedom Convoy
Location	Ottawa
Incident Date and Time	28/01/2022 13:29

Brief Synopsis

Current Situation as of 1500 hrs

There are no protestors on Parliament Hill and there are 2-300 protestors on Wellington and at Rideau/Sussex. There has been no changes in the geographical footprint and the road closures remain in effect.

There are over 100 officers deployed in static traffic, QRT and roving response. In addition, multiple POU units are being rotated at different congregation spots within the footprint. POU is also providing visible presence to OPS members engaged in proactive enforcement or activities.

Traffic Officers continue with enforcement activities and CET is doing engagement and enforcement in the surrounding neighbourhoods. PLT has been engaged in ongoing discussions with the various factions with some levels of success.

OPP partners have been engaged in heavy traffic enforcement on highway off ramps leading to the downtown core in support.

After ongoing discussions with PLT, Algonquin Elders and attending clan mothers, Confederation park was cleaned by the protestors with items moved to the local roadside and loaded into vehicles. This was inclusive of fuel and food. The structure has been loaded onto a flatbed truck and will be moving from the park area shortly (awaiting additional strapping to safely secure the load before driving)

RCMP officers engaged on the demo responded to a successful NARCAN call under 22-31272

OFD and OPS members attended Wellington St to conduct air quality assessments. The engaged in a proactive campaign to warn protestors about carbon monoxide poisoning risk from idling vehicles

Uniformed officers in the Kent and Laurier area engaged with the truckers and were able to open one lane of traffic for emergency vehicles between Laurier and Slater.

Enforcement actions and more proactive engagements are taking place in the interior core. Members are tempering this with crowd dynamics to find a balance of public safety and enforcement.
